CableWrapper – Linear Material Holder

Sell, package, store or transport wires, cables, ropes and any other linear materials using a CableWrapper

**Patent Number:
7,575,189**

What is CableWrapper?

- **CableWrapper is a convenient packaging solution to sell, store and/or transport wires, cables, ropes, power cords, Christmas lights and any other linear materials**
 - A cost effective and innovative packaging solution – replacing traditional spools
 - Made from corrugated cardboard or plastic - ease of manufacturing
 - Multiple sizes and thickness for strength – supporting variety of lengths / gauge
 - Does not require any fastening – unique patent design to fasten materials
 - Collapses for flat storage – over 30,000 pieces can be stored on a single pallet

Key Benefits / Features:

- **Its unique patented design keeps linear materials organized - avoiding the hassle and inconvenience of tangled and disorganized linear materials**
- **Easily package/wrap linear products for packaging, selling, storing, and shipping**
- **Preprinted for advertising and to reinforce branding**

Application:

- **Stand alone product for home or office use – storing and transporting cables, wires, ropes, power cords, Christmas lights and other linear materials.**
- **As a packaging solution or in conjunction with other products such as Christmas lights, ropes and other linear materials**
